

Last Race of the Season 2017. Sunday 29th October

A fresh northerly breeze sorted out the crews and their equipment with several boats suffering gear failure and plenty of capsizes to keep the safety crew busy.

Prize of the day for a death roll capsize downwind in a Pico went to Richard, the splash was spectacular. A capsize by Steve before the start of the second race meant mast damage and saw him trying to sail with a gaff rigged Lark! Brendan and Alan found it hard to keep the 505 the right way up without a tiller extension and Chris found his dry suit was not quite as dry as he had hoped.

Well done to Graham and Jake who managed to keep themselves dry and mainly upright.

The results of the day are below but don't forget to come along to the AGM to find the overall results for the year. These are calculated on 9 races with each helm being able to drop one race for their final points.
